INTELLIGENCE MEMORANDUM

The India-Pakistan Situation
(Report #70 - As of 6:00 A.M. EDT)

1. Despite reports of some minor violations in the cease-fire, Indian and Pakistani troops generally continue to observe the shaky truce.

[REDACTED]

The largest flare-up reportedly occurred yesterday near Lahore in Pakistan but details are lacking.

2. Prime Minister Shastri told the Indian Parliament yesterday that Kashmir and Jammu are integral parts of India and there is no case for self-determination. Meanwhile the Pakistani Law and Parliamentary Affairs Minister said that the settlement of the Kashmir problem would be the "last chance" for the UN and "for all those that claim to be our friends." He said Pakistan would leave the UN if there were no settlement and would also reconsider its membership in SEATO and CENTO.

3. Shastri has stated that India will not withdraw its troops from Pakistan until Karachi pulls back the "infiltrators" it has sent to Kashmir. Pakistan denies it has sent guerrillas into Kashmir.

4. Major General Bruce Macdonald of Canada has been named commander of the UN observation team being recruited from various countries.

5. Chinese demands that India return some livestock stolen from along the Tibetan border were answered when several thousand Indians marched on China's New Delhi embassy driving a flock of sheep before them. Police prevented violence and did not allow the sheep to get close to the embassy.
